

# Announcing the Official Book of GSL History

## THE GSL INTERNATIONAL MODEL CAR CHAMPIONSHIP

*A Tradition of Auto Modeling Excellence*

by Mark S. Gustavson

If you want to read about the public aspects of the GSL tradition, as well as literally dozens of behind-the-scenes stories, if you have wanted to see again the famous models that have helped define the GSL Championship in particular and the hobby at large, if you want to learn about the mistakes and successes of this great Championship, then this book is for you! In development for nearly four years, the book is now ready for immediate shipment.

Each first edition copy of the book is hardbound, numbered and signed by the author. Each book also features a color section featuring each of the Best of Show winners accompanied by a lively analysis of the significance of that model. Additionally, there are lots of black and white photos illustrating each chapter. The book exhaustively examines, in candid detail, the first sixteen years of the GSL Championship, and includes many never-told-before stories. The book also contains an extensive appendix and footnote section including a history of the major contests that preceded GSL. **THE GSL INTERNATIONAL MODEL CAR CHAMPIONSHIP**, *A Tradition of Auto Modeling Excellence* celebrates our Championship and all the individuals that have contributed to the GSL Tradition.

You can purchase a copy for \$30.00 postpaid; the books will be shipped in the sequence that the orders were received. Please note that all net proceeds will be divided equally to support the National Model Car Builders' Museum and the Seventeenth GSL International Model Car Championship, to be held in April 23-25, 1999 in Salt Lake City.

Purchase your copy today by filling out the following form with your payment (NO CASH PLEASE). (Please allow 2-3 weeks for delivery).

*Please Print*
